

دستگاه برش لیزر پارچه دوربین دار

031-35131

www.simayeshahr.com

Technical parameters

Laser power	80w~150w(optional)
Power supply	AC220/110,±10%,50/60HZ
Max processing area	1800x1200mm/1800x1400mm/1900x1400mm
Cutting speed	0-40,000mm/min
Locating precision	0.03mm
Operating temperature	0-45 centigrade
Environment temperature	5-95%(without dew)
Graphic format supported	BMP, BIF, JAGE,PCX, TGA, TIFF, PLT, CDR, DMG,DXF
Assistant fitting	exhaust fan and pipe
Workable	professional thick honeycomb table
Whole machine power consume	2250w
Machine dimension	2180x1580x1120mm
Package size	plywood case 2300x1900x1300mm

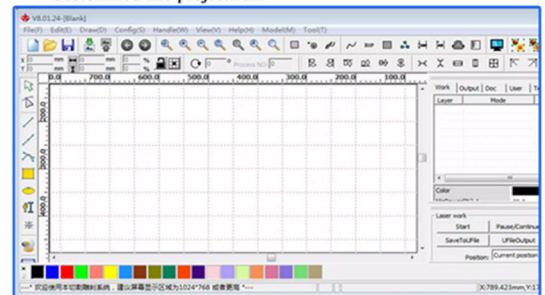

Automatic CCD Camera

This type laser Cutting Adopts CCD Camera positioning automatically high cutting speed,high precision,well cutting effect.

RD Vision Control Software

Vector format: dxf, ai, plt, dst, dsb, etc
 Bitmap format: bmp, jpg, gif, png, mng, etc
 Customized file project: rdm

Product Application
